MEGA MAN, THE WORLD'S SMALLEST ACTION HERO, FOUND HIMSELF TRYING TO FIT IN AT MEGA CITY JUNIOR HIGH SCHOOL IN HIS NORMAL GUY PERSONA OF ROCKY HIGH. AS IF BATTLING KILLER ROBOT VILLAINS WASN'T LIGHT ENOUGH, THE FIRST DAYS AT SCHOOL HAVE PROVED BAD MORE CHALLENGING AND EVEN SCARIER! NOT THAT BAD-GUY ROBOTS WERE ON VACATION, HOWEVER—EVEN AS THE SEMESTER GOT UNDER WAY, A WAVE OF ROBOTIC ATTACKS BEGAN AGAINST ALL THE MECHANICAL WONDERS GIVEN TO THE CITY BY ROCKY'S "DAD," ROBOTICS-GENIUS, DR. LIGHT. THE MYSTERIES ONLY GET DEEPER AS THE STAKES BECOME EVER MORE DANGEROUS...ESPECIALLY FOR MEGA MAN!

ENTER PROTOMAN!

At Mega Man's darkest hour, a mysterious, masked ally reveals himself and joins the battle at the Blue Bomber's side. Who is the strange hero, why does he help Mega Man and what does he have to do with the unknown threats against Dr. Light and Mega City? If that isn't bad enough, Mega Man's adjustment to Junior High School goes from bad to cataclysmic when a school dance turns wild and dangerous.

NEXT MONTH!

MEGA-mail

Welcome to Mega-mail! This month we'll look at some of your Mega Man inquiries, as well as take a few general Capcom questions.

Let's get to it!

Dear Dreamwave,
I can only think of one word to describe your series of comics. Wow.

When I heard that Dreamwave was making the new Transformers comics, I was not filled with joy. A new company was making the comics, while I was a big fan of the Marvel issues. Well, after picking up the first issue of the Generation 1 series, all my doubts faded to nothing. I was amazed. Then I read the War Within series. Again, I was amazed. The series were just over the top in art and story, capturing the glory of the original Transformers.

Now, I have seen ads for Capcom comics. My first thought was "Huh?" My second one was, "Excellent," because I knew a good company was handling the series. I'm a big fan of the Mega Man series, and when I saw it was on your list of stories, I was about to jump through the roof. To know one of my favorite games series was getting a new comic series along with a new game (in the X series of Mega Man, mind you), I thought things couldn't get any better. I hope you can keep the quality of your comics up as you have so far. While Mega Man is cool, I think you should do a series based off the Mega Man X games, as they are darker and could attract some older teens to read them, and I'm a bigger fan of the X series.

Just keep these excellent series coming and I'll keep buying.

Jeffery Johnson

Thanks Jeffery! We hope you've enjoyed the Mega Man series so far. Judging from our fan mail, it seems Mega Man X is just as popular as the original Blue Bomber! If this fan-pressure keeps up we may be FORCED to give him his own series...

Dear Dreamwave,
I've been hearing a lot about the Devil May Cry comic and really looking forward to seeing it... It's the best game I've played yet, and was hoping for a date as to when it will be released... and I'm really looking forward to the idea of the movie...

Mandy

Devil May Cry will be showing up sooner than you think, with an all-new comic series debuting in February 2004 by writer Brad Mick & superstar penciler Pat Lee. Until then you can get your fill of DMC's Dante & Trish with the Devil May Cry Poster, on sale this December.

Dear Dreamwave,
When do you think the first Darkstalkers and Rival Schools comics will be published?

Mahsad Brooks

Both the Darkstalkers and Rival Schools comics are a little far off production-wise to give out concrete dates, but look for both series to show up some time in 2004. If you can't wait that long then you'll just have to pick up the Capcom VS Capcom 2004 Calendar featuring characters from both Darkstalkers, Rivals School, and several more of your favorite Capcom properties. Look for the calendar to show up this October.

Dear Dreamwave,
I just wanted to ask a question about the whole Mega Man comic that's going to be coming out in comic stores. I wanted to ask if Bass is going to be in the comic? I really appreciate it thanks.

Dark Thorn a

Bass and his pooch/partner Treble won't be appearing in the current Mega Man storyline, but there's no reason that they can't show up some time in the future! Keep reading & keep writing if you'd like Bass to show his face in Mega City!

Matt!
